## **DOMESTIC WATER HOSE REEL**

L-PDW1225

### **DOMESTIC WATER HOSE REEL**

L-PDW1225

#### DESCRIPTION

Thank you for purchasing a Lubemate domestic water hose reel. This reel is a quality UV stabilised reel, supplied complete with a delivery hose, feeder hose, mounting bracket, quick connect hose fittings and spray nozzle.

#### **FEATURES AND BENEFITS**

- 1. The hose reel is UV stabilised.
- The reel is easy to use positive latch and a built in hose layering mechanism to prevent hose bunching.
- The new speed control device means automatic rewinding of the hose in a constant speed and safer way.
- Durable construction made from high quality impact resistant polypropylene, light weight and compact.
- 5. Comes with a convenient handle for portable use.
- 6. A powerful spring winds the hose back into the drum.

#### IMPORTANT

Please read the instruction carefully before using your new hose reel. The information contained will help you in the safe operation of your hose reel. Please retain this manual for future reference.

### IMPORTANT

## To prevent injury or damage do not release the hose during rewinding.

- Do not disassemble hose reel.
- Ensure the reel or hose is not in contact with any sharp objects or exposed to high temperatures
- 3. Do not drop this reel or damage will occur.
- 4. Turn off water supply after use.

#### **TECHNICAL INFORMATION**

Type: Domestic Water (12.5mm x 25m)

Supplied with quick connect fittings and spray nozzle Maximum working pressure - 87 psi (600 kPa)

Weight approximately 10kg

#### INSTALLATION

- Ensure the reel is to be mounted in a safe location.
  Ensure there is enough space(>80cm) for the bracket and for the reel to swivel180°.
- 2. Drill holes at the same pitch as the wall bracket provided.
- Securely fit the wall bracket to the wall, then secure the reel to the bracket.

#### BOX CONTENTS

- Retractable hose reel
- Feeder hose (fitted)
- 3. Quick connect hose fittings and spray nozzle
- 4. Mounting wall bracket
- 5. Instruction manual

#### **OPERATION**

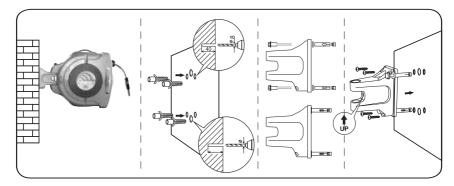

To operate, pull your hose out to the desired length and allow the hose to latch. When finished, pull the hose to release the latch and allow the hose to recoil into the reel.

#### MAINTENANCE

## Before carrying out any maintenance turn off the water supply and release the line pressure

- 1.Turn off the water supply after use.
- 2. Wipe down the hose and case periodically with a soft towel, you can use a mild detergent to clean the reel if required.
- 3. Check weekly for the correct operation of the reel.
- 4 Check weekly that the hose is in good condition.

#### **FURTHER HOSE REELS AVAILABLE IN THIS RANGE**

PRODUCT CODE	IMAGE	DESCRIPTON
L-PAW1030		The L-PAW1030 air hose reel is the ideal choice for small workshop applications. The reel is UV stabilised has a hose layering mechanism which prevents hose bunching and is supplied with a 10mm x 30m hose assembly and 10mm x 2m feeder hose, with a working pressure of 174psi (1200kpa). The mounting bracket supplied allows the reel to pivot 180 degrees.
L-PAW1220		The L-PAW1220 air hose reel is the ideal choice for small workshop applications. The reel is UV stabilised has a hose layering mechanism which prevents hose bunching and is supplied with a 12.5mm x 20m hose assembly and 12.5mm x 2m feeder hose with ½" BSP inlet and outlet connections with a working pressure of 174psi (1200kpa). The mounting bracket supplied allows the reel to pivot 180 degrees.
L-PAW1014		The L-PAW1014 air/water reel is a small compact reel, ideal for small workshop applications. The reel is UV stabilised has a hose layering mechanism which prevents hose bunching and is supplied with a 10mm x 14m hose assembly and 10mm x 1 m feeder hose with 1/4" BSP inlet and outlet connections, with a working pressure of 174psi (1200kPa). The mounting bracket supplied allows the reel to pivot 180 degrees.
