

Oxy / LPG Hose Reel

Owners Manual

Includes Models
OG215K OGC215K

Premium Hose Reels

IMR30LPG-issue 6

INTRODUCTION

Thank you for purchasing the Retracta R3 retractable hose reel.

PLEASE READ THIS SAFETY INFORMATION CAREFULLY BEFORE USE.

Read and retain this instruction manual to assist you in the operation of your new product.

'CAUTIONS' are listed throughout this manual to advise of actions that may cause damage to the operator or to the equipment.

you're

- Operation and maintenance of Oxy-Fuel Gas equipment should conform to the provisions of the American National Standard Z49-1 "Safety in Welding and Cutting".
- Leak test all connections and hose reel swivels prior to initial use (refer "Gas Leak Test Procedure")
- It is recommended that leak tests on all equipment be carried out at least once a month, on the replacement of gas cylinders and after any maintenance procedure.
- For O-Ring seal lubrication use **only 'HYPALUBE A514' or an equivalent inert lubricant** when required. **DO NOT** allow oil or grease to come in contact with the swivel or Oxy-Fuel gas equipment.

CAUTION

ONLY use this Retracta reel for the Oxy Fuel gas combination.

DO NOT use equipment in poorly ventilated areas.

EXAMINE the hose, reel swivel and other equipment for damage (including leaks) should a "Flashback" occur. Replacement of swivel seals is recommended. The use of "Flashback" check valves to reduce the risk of backflow and "Flashback" is also recommended.

ONLY genuine Retracta R3 replacement parts.

DO NOT use pipe fitting compounds or thread lubricants in making connections.

DO NOT direct the gas flame at the hose or hose reel.

DO NOT exceed the recommended maximum LPG draw off rate from the cylinder and only operate when the cylinder is upright. LPG contained in the cylinder can escape and damage the hose, hose reel seals and other equipment.

GAS LEAK TEST PROCEEDURE

Note: Before attempting any maintenance, disconnect and turn off supply line then release line pressure.

Test each hose line separately and ensure that all connections are tight.

- 1) Close both torch valves.
- 2) Open the Oxygen cylinder valve and adjust delivery pressure to 25psi or more.
- 3) Close the Oxygen valve, check guage to ensure no pressure drop. If there is drop in pressure, check all connections, then re-pressure and test all the connections including hose, by brushing with warm soapy water solution looking for the presence of any bubbles.
- 4) Open the Oxygen valve at the torch and re-close to vent the Oxygen line. Repeat steps 1, 2 and 3 with the LPG, with the delivery pressure set at 10 psi. Vent the LPG line.
- 5) Replace or repair any faulty items immediately and repeat 'Leak test' procedure.

CAUTION

Test the system and all connections for leaks prior to use. Re-test the system frequently (once per month approx) and on each change of gas cylinder or after maintenance.

INSTALLATION INSTRUCTIONS

Fig.1 Wall mounting (max height 1.4m)

Fig.2 Overhead mounting (max height 4.5m)

Fig.3 BB100 Bracket - Floor/Bench

Fig.4 BB100 Bracket High wall mounting (max height 4.5m)

- 1) Use appropriate hardware to secure and support the reel and bracket to desired location and weight of the fluids.

(refer to back page for mounting bracket template)

- 2) Prevent the reel from swiveling in the overhead position (figure 2) by install locking bracket RB9 (supplied).
- 3) If spring recoil tension requires adjusting refer to "Add spring tension" for correct procedure
- 4) Connect the fluid supply line to the side of the reel making sure to tighten appropriately.
- 5) It is recommended that an isolation valve is installed before the reel inlet.
- 6) Connect a desired hose-end attachment and tighten appropriately. Thread sealant may be required.
- 7) Purge the air from the reel and check for any leaks or damage before initial use.
- 8) Before carrying out any maintenance, close isolation valve and remove all line pressure.

CAUTION

Before attempting any maintenance disconnect and turn off supply line, then release the line pressure.

INCREASE SPRING TENSION

- 1) Remove screws

- 2) Add 2 complete turns
Note: 1 click on hub equals 90 deg

- 3) Replace screws

HOSE REPLACEMENT INSTRUCTIONS

CAUTION

Before attempting any maintenance disconnect and turn off supply line, then release the line pressure.

Note: After replacing the hose it is important that you carry out the leak test procedure as listed on page 2

1) Pull out hose and latch

2) Remove screws

3) Remove sideplate

4) Remove cable tie

5) Remove hose from swivel

6) Remove old hose

7) Fit new hose

8) Fit hose to swivel

9) Fit cable tie

10) Fit side plate

11) Fit screws.

12) Recoil hose evenly into reel

CAUTION

Test reel for leaks prior to any use

SWIVEL SEAL REPLACEMENT INSTRUCTIONS

CAUTION

Before attempting any maintenance disconnect and turn off supply line, then release the line pressure.

Note: After replacing swivel or swivel seals it is important that you carry out the leak test procedure as listed on page 2

1) Pull out hose and latch

2) Remove screws

3) Remove sideplate

4) Remove cable tie

5) Remove circlip

6) Remove swivel body

7) Carefully replace o'rings

8) a) Apply grease to o'rings
(only use 'HYPALUBE A514' or equivalent grease)
b) Fit swivel body

9) Fit circlip

10) Fit cable tie

11) Fit side plate

12) Fit screws.

13) Recoil hose evenly into reel

CAUTION

Test reel for leaks prior to any use

SWIVEL REPLACEMENT INSTRUCTIONS

CAUTION

Before attempting any maintenance disconnect and turn off supply line, then release the line pressure.

Note: After replacing swivel it is important that you carry out the leak test procedure as listed on page 2

1) Pull out hose and latch

2) Remove screws

3) Remove sideplate

4) Remove cable tie

5) Remove hose

6) Remove circlip

7) Remove swivel body

8) Remove screws

9) Remove swivel shaft

10) Fit new shaft

11) Fit screws

12) a) Apply grease to o-rings
(only use 'HYPALUBE A514' or equivalent grease)
b) Fit swivel body

SWIVEL REPLACEMENT INSTRUCTIONS

13) Fit hose

14) Fit circlip

15) Fit cable tie

16) Fit side plate

17) Fit screws.

18) Recoil hose evenly into reel

CAUTION

Test reel for leaks prior to any use

REMOVE / REPLACE TENSION SIDE PLATE

Before attempting any maintenance disconnect and turn off supply line, then release the line pressure.

1) Remove screws with magnetic screwdriver

2) Hold hub and remove screws

3) Release spring tension

4) Remove screw and center hub

5) Remove screws.

6) Remove side plate

7) Fit new side plate.

8) Fit screws.

9) Fit screws

10) Fit screw.

11) Add 2 complete turns

12) Fit screws

For models fitted with RACR
**RACR ADJUSTMENT
CONTROL INSTRUCTIONS**

1. Remove the cover screw

2. Pull hose out and latch when adjustment screw appears

3. Adjust speed as desired

4. Replace the cover screw

TROUBLESHOOTING GUIDE

<p>Hose does not retract correctly</p>	<p>A) Outlet nozzle, gun or tool is too heavy</p> <p>B) Spring is fatigued and lost tension</p>	<p>Refer to INCREASE SPRING TENSION on page 3</p>
<p>Reel does not latch</p>	<p>A) Incorrect operation</p> <p>B) Latch assembly is broken</p>	<p>Refer to REMOVE/ REPLACE TENSION SIDE PLATE on page 8</p>
<p>Leaking from hose</p>	<p>Split in hose</p>	<p>Refer to HOSE REPLACEMENT on page 4</p>
<p>Leaking from swivel</p>	<p>Swivel or swivel seals are worn</p>	<p>Refer to SWIVEL OR SWIVEL SEAL REPLACEMENT on page 5 or 6</p>

CAUTION

Test reel for leaks prior to any use

REFER TO : Page 5
 SWIVEL OR SWIVEL SEAL REPLACEMENT INSTRUCTIONS

Swivel Assembly

OXY / LPG

**O'Ring seal kit
 OLPG-1K**

**Swivel Assembly kit
 RS123Bs**

SPARE PARTS LIST

OXY LPG

Item no	Description	Spare part no
1	Tension hub set	R3THs
2	Latch set	R3Ls
3	Latching side plate	R3LPs
4	Inlet side plate	R3IPs
5	Drum assembly	R3DAs
6	Mouth set	R3Ms
7	Standard Bracket (incl locking plate)	BU200
8	Outer Casing Set - nom color	R3OC-color
9	Lower insert (nom colour)	R3LIS-color

SWIVEL ASSEMBLIES

10	Oxy LPG swivel assembly	RS123Bs
----	-------------------------	---------

SWIVEL SEAL KITS

12	Swivel seal set Oxy LPG (not shown)	OLPG-1K
----	-------------------------------------	---------

HOSE STOPPERS

	Spare part no
Gas reel	RP156-4s

HOSE ASSEMBLIES

1/4"x 15m - Oxy LPG	RH60s
---------------------	-------

Wall Bracket

Wall bracket (not shown)	BU200

Exploded Diagram

Note:

1. Outer casing set is supplied with screws, mouth set and lower insert
2. Standard bracket not shown

DECLARATION OF CONFORMITY

EN (English)		Declaration of Conformity	
We:	Macnaught Pty Ltd	Of:	41-49 Henderson Street, Turrella NSW 2205, Australia
Declare that:	Retracta Hose Reel models prefixed AR, ARC, ARG, ARGC, AW, CL, CLC, CW, CWC, DR, DRC, FRAS, GR, GRC, HP, HPC, HW, HWC, LPG, LPGC, OA, OAC, OG, OGC, OMP, OMPC, RO, ROC, RY, RYC, WD & WDC		
In accordance with:	2006/42/EC 2009/127/EC	(The Machinery Directive) (amending Directive - WD, DR & DRC models only)	
has been designed and manufactured to the following specifications:			
	EN ISO 12100: 2010	(Safety of Machinery)	
I hereby declare that the equipment named above has been designed to comply with the relevant sections of the above referenced specification. The product complies with all essential requirements of the Directives.			
Signed By:			
	Marco Uccellani, Engineering Manager, Macnaught Pty Ltd.
