

ROTARY VANE PUMP HAND-OPERATED

The RVP-01 is a heavy-duty die cast aluminium rotary vane pump designed to dispense diesel, kerosene and lubricating oils up to SAE90.

The RVP can deliver up to 20L/min (5gal/min) from 60 L (16gal) to 205 L (55gal) drums.

A 1.8m delivery hose with an anti-kink spring allows easy fluid dispensing directly into tanks or containers.

Nozzle Holder To Prevent Spillage

Allows nozzle to be fixed in non-siphoning position

Rotary Action

Quick, effortless delivery of fluids up to 20L/min in both directions

2" Sliding Bung Adapter

Suits different height drums from 60L - 205L

3 Piece Suction Tube

Allows length of suction tube to be adjusted to accommodate different height drums

Self-priming

Easy to prime by rotating the handle

RVP-01
Rotary Vane Pump

Lockable Handle

To prevent theft of fluid

Fully Repairable

Provides a much longer service life

Anti-kink Spring

Prevents hose from restricting fluid delivery

1.8m Delivery Hose

Dispense direct from drum into tanks or containers

TECHNICAL SPECIFICATIONS

- Suitable for 60L - 205L drums
- Delivers up to 20L/min in both directions
- 1.8m PVC / Nitrile delivery hose
- 2" BSP sliding bung adaptor
- 3 piece suction tube
- Suitable for use with diesel, kerosene & lubricating oils up to SAE 90
- Not suitable for most Bio-Diesel blends
- Wetted components: Aluminium, steel, zinc & nitrile rubber

PACKAGE INCLUDES

- RVP-01 Hand-Operated Rotary Vane Pump
- 1.8m delivery hose with anti-kink spring
- Sliding Bung Adapter - 2" BSP
- 3 piece suction tube
- Instruction manual
