

QUICK RELEASE GREASE COUPLERS L-QRC, L-QRCXL, L-QRC-KIT2

The new Lubemate quick release couplers offer you the choice of a short or long nozzle to access a wider range of areas to lubricate more effectively. Both couplers include the hardened four jaw design which grips the grease nipple tighter, overall making the coupler more resilient under pressure. The unique red lever design makes uncoupling cleaner and effortless, allowing easier disconnection.

L-QRC

Four jaw design

Hardened jaws are resilient under high pressure.

Compact size

Measuring only 74mm x 30mm allows for use in small, tight spaces.

Unique lever design
Makes coupling and uncoupling effortless.

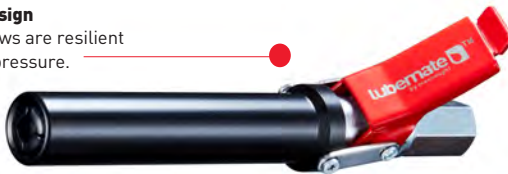

TECHNICAL SPECIFICATIONS

-  Pressures up to 10,000psi
-  1/8" BSP (F) inlet
-  Ultralight 85g only
-  Hardened 4-jaws
-  Compact size

L-QRCXL

Four jaw design

Hardened jaws are resilient under high pressure.

Unique lever design
Makes coupling and uncoupling effortless.

TECHNICAL SPECIFICATIONS

-  Pressures up to 10,000psi
-  1/8" BSP (F) inlet
-  Measuring 129mm x 30mm
-  Hardened 4-jaws
-  Suitable for all grease gun types - air operated, manual and battery powered

Extra long - 129mm in length

Extra length for accessing hard to reach grease nipples.

L-QRC-KIT2

The Lubemate Test Stand has been designed to display and test the ease of using the new Lubemate couplers. With capacity to hold 10 packaged couplers both small or large, the Test Stand is your ideal grease coupler working counter display.
